

ASF Fees

New Information

Effective February 2, 2005, the department will implement a new vehicle registration fee computation program that corrects rarely encountered discrepancies from the previous fee calculation software.

The new programming **does not** affect vehicle registration procedures.

Dealers and/or registration services should be aware that the new fee computation program:

- Will generate administrative service fees (ASF) in strict accordance with the provisions of *Vehicle Code* §4456(a) for the number of days dealers have to post fees and/or clear vehicle registration transactions.

NOTE: This **does not** affect the department's policy of granting additional days when the Certificate of Title is unavailable because the department is processing a prior transaction or when the department holds an application for processing for more than five business days.

Reference: Section 19.000, *Handbook of Registration Procedures* (REV. 09/2004) (available online at www.dmv.ca.gov)

- May impact the fees and/or penalties on a Report of Deposit of Fees (RDF) transaction processed prior to February 2, 2005, and cleared on or after that date. The result may be an additional fee(s) due or a refund.
